

Date:

Time/Hour:

Doctor:

7 days before the planned medical examination, should be discontinued after consulting your doctor:

- Anticoagulants meds, for example.: Sintrom, Acard, Polopyrin, Aspirin, Ticlo;
- Antiplatelet meds, for example.: Plavix, Xarelto.

On the day of examination, you should stay minimum:

- 6 hours on an empty stomach (without eating)
- 3 hours without drinking any fluids

Since morning don't consume coffee, milk products, fizzy drinks, and it's forbidden to smoke cigarettes.

If general anesthesia is used, you should stay 5 hours without drinking any fluids on the day of examination.

The results of previous gastroscopy and/or additional tests should be brought to the examination.
